These swimming rules shall apply in all events conducted by SwimmingSA and South Australian meets conducted by affiliated associations.

To the extent of any inconsistency between World Aquatics, Swimming Australia and SwimmingSA rules and policies, the World Aquatics rules take precedence.

**NOTE:** The MC rule number indicates the addition of an applicable World Para Swimming (WPS) rule or the addition of or modification to an applicable Swimming Australia rule relating to Multi Class (MC) competition for classified with an impairment. In case of three (3) equal times for 8th place, lane 9 and 0 will be used with a draw for lane 8, 9 and 0. Such swim-offs shall take place after all involved swimmers have completed their heat at a time agreed between the Technical Manager and the parties involved. Another swim-off may take place if equal times are registered again. If required a swim-off will take place to determine first and second reserve if equal times are recorded.
- SW 3.2.4** Where one or more swimmers scratch from a semi-final or final event, reserves will be

**MC 4.1.2**            Athletes with balance problems i.e. who have difficulty standing stationary, may have assistance to balance themselves on the starting platform i.e. hold at the hips, hand, arm etc., by one Support Staff. Support Staff may aid the athlete to remain stationary at the start; however the Support Staff shall not allow the athlete an unfair advantage by being held beyond the 90 degrees vertical position on the starting platform. Giving momentum to the athlete at the start is not permitted. (**WPS 11.1.2.2**)

**MC 4.1.3**            An athlete with only one fully functional leg does not need to have a foot at the front of the starting platform so as long as they have one hand or other part of the arm at the front of the starting platform. (**WPS 11.1.2.3**)

**SW 4.3A** At Australian swimming events, the command "take your marks" shall be in English and the start shall be by multiple loudspeakers, mounted one at each starting platform.

**SW 4.4** Any swimmer initiating a start before the signal may be disqualified. If the starting signal sounds before the disqualification is declared, the race shall continue, and the swimmer or swimmers shall be disqualified upon completion of the race. If the disqualification is declared before the starting signal, the signal shall not be given, but the remaining swimmers shall be called back and start again. The Referee repeats the starting procedure beginning with the long whistle (the second one for Backstroke) as per SW 2.1.5.

**SW 5.3** Some part of the swimmer must break the surface of the water throughout the race, except it shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15m after the start and each turn. By that point, the head must have broken the surface.

**MC 5.3** For athletes in sport classes S1-5, during each complete stroke cycle some part of the athlete must break the surface of the water. This device shall be cleared and deemed safe by the Technical Manager prior to the commencement of the competition. Giving momentum to the athlete at the start is not permitted. The athlete shall have part of the body in contact with the wall until the starting signal is given. **(WPS 11.3.1.3)**

**SW 6.2** At the signal for starting and after turning the swimmer shall push off and swim upon their back throughout the race except when executing a turn as set forth in SW 6.4. The normal position on the back can include a roll movement of the body up to, but not including 90 degrees from horizontal. The position of the head is not relevant.

**SW 6.3** Some part of the swimmer must break the surface of the water throughout the race, except that once some part of the head of the swimmer has passed the 5 metres mark immediately prior to reaching the finish, the swimmer may be completely submerged. It shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15m after the start and each turn. By that point the head must have broken the surface.

**MC 6.3** For athletes in sports classes S1-5, during each complete stroke cycle some part of the athlete must break the surface of the water. One stroke cycle is defined as one full rotation of the shoulder joint(s) and/or one complete up and down movement of the hip joint(s). **(WPS 11.3.3.1)**

**SW 6.4** When executing the turn, there must be a touch of the wall with some part of the swimmer's body. During the turn, the shoulders may be turned over the vertical to the breast after which an immediate continuous single arm pull or immediate continuous simultaneous double arm pull may be used to initiate the turn. The swimmer must have returned to the position on the back upon leaving the wall.

**MC 6.4** For the athlete who have no arms or use of their arms during the turn, once the body has left the position on the back, the turn shall be initiated. The athlete must have returned to a position on the back upon leaving the wall. **(WPS 11.3.5)**

At any time prior to the first Breaststroke kick after the start and after each turn a single Butterfly kick is permitted. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke.

**MC 7.1** After the start and after each turn, an athlete who is unable to push off with the leg(s), may perform one arm stroke that may not be simultaneous or on the horizontal plane to attain the breast position. **(WPS 11.4.1.1)**

- SW 7.2** From the beginning of the first arm stroke after the start and after each turn, the body shall be on the breast. It is not permitted to roll onto the back at any time except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall. From the start and throughout the race the stroke cycle must be one arm stroke and one leg kick in that order. All movements of the arms shall be simultaneous without alternating movement.
- MC 7.2** When an athlete does not have any legs or arms or parts thereof, either the kick or the respective arm stroke shall constitute a complete stroke cycle. **(WPS 11.4.2)**
- SW 7.3** The hands shall be pushed forward together from the breast on, under, or over the water. The elbows shall be under water except for the final stroke before the turn, during the turn and for the final stroke at the finish. The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and each turn.

- SW 7.5** The feet must be turned outwards during the propulsive part of the kick. Alternating movements or downward Butterfly kicks are not permitted except as in SW 7.1 Breaking the surface of the water with the feet is allowed unless followed by a downward Butterfly kick.
- MC 7.5** An athlete who is unable to use one or both legs and/or foot/feet to gain propulsion shall not be required to turn the affected foot/feet outwards during the propulsive part of the kick. **(WPS 11.4.5.1)**
- SW 7.6** At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously at, above, or below the water level. At the last stroke before the turn and at the finish an arm stroke not followed by a leg kick is permitted. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch.
- MC 7.6** At each turn and the finish of the race, where an athlete has different arm lengths only the longer arm must touch, but both arms must be stretched forward simultaneously. **(WPS 11.4.6.1)**
- MC 7.6.1** At each turn and at the finish of the race, an athlete with upper limbs which are too short to stretch above the head shall touch with any part of the upper body. **(WPS 11.4.6.2)**
- MC 7.6.2** At each turn and the finish of the race, where an athlete can only use one arm for the stroke cycle the athlete must touch with the one (1) hand/arm that is used for the stroke. Where an athlete's impairment results in only one (1) arm being used, the non- functioning arm shall be dragged or stretched forward. **(WPS 11.4.6.3)**
- MC 7.6.3** At each turn and the finish of the race, where the athlete who uses both arms but has restriction in the shoulder/elbow, only the longer arm must

touch, but both arms must be stretched forward simultaneously. (WPS 11.4.6.4)

**MC 7.6.4** Athletes in sport classes SB11-12 may have difficulty making a simultaneous touch at the turn and the finish if they are restricted due to contact with the lane rope. The athlete shall not be disqualified provided that no advantage was gained. (WPS 11.4.6.5)

## **SW 8 Butterfly**

**SW 8.1** From the beginning of the first arm stroke after the start and each turn, the body shall be kept on the breast. It is not permitted to roll onto the back at any time, except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall.

**MC 8.1** After the start and after each turn, an athlete who is unable to push off with the leg/s may perform one arm stroke that may not be simultaneous to attain the breast position. (WPS 11.5.1.1)

**SW 8.2** Both arms must be brought forward simultaneously over the water and brought backward simultaneously under the water throughout the race, subject to SW 8.5.

**MC 8.2** Athletes in sport classes S11-12 may have difficulty bringing both arms forward simultaneously if they are restricted due to contact with the lane rope. The athlete shall not be disqualified provided that no advantage was gained. (WPS 11.5.2.1)

**MC 8.2.1** Athletes with a vision impairment approaching a turn or finish may bring their arms forward under the water immediately after they have been tapped. (WPS 11.5.2.2)

**MC 8.2.3** Where an athlete can only use one (1) arm for the arm stroke, the arm shall be brought forward over the water. The position of the body must remain in line with the water surface. Where an athlete's impairment results in only one (1) arm being used the non- functioning arm shall be dragged or stretched forward. This rule ensures an athlete who competes using only one arm for the arm stroke stays on the breast in line/parallel to the water surface, as butterfly was originally intended and are not swimming on their side, with a dropped shoulder. For the purposes of this rule, "the body" is the trunk of an athlete, including the shoulders. (WPS 11.5.2.4)

**MC 8.2.4** At the turn and finish, athletes with no leg function may perform a half stroke with the arm/s recovering forward under the surface of the water, in order to contact the wall. (WPS 11.5.2.5)

**SW 8.3** All up and down movements of the legs must be simultaneous. The legs or the feet need not be on the same level, but they shall not alternate in relation to each other. A Breaststroke kicking movement is not permitted.

**SW 8.4** At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously at, above or below the water surface.

**MC 8.4.1** At each turn and the finish of the race where an athlete has different arm lengths only the longer arm must touch, but both arms must be stretched

forward simultaneously. (WPS 11.5.4.1)

**MC 8.4.2** At each turn and at the finish of the race, an athlete with no or non-functional upper limbs or upper limbs too short to stretch above the head, shall touch with any part of the upper body. (WPS 11.5.4.2)

**MC 8.4.3** At each turn and the finish of the race, where an athlete can only use one arm the athlete must touch with the one (1) hand/arm that is used for the stroke. (WPS 11.5.4.3)

**MC 8.4.4** At each turn and the finish of the race, where the athlete who uses both arms but has restriction in the shoulder/elbow only the longer arm must touch, but both arms must be stretched forward simultaneously. (WPS 11.5.4.4)

**MC 8.4.5** Athletes in sport classes S11-12 may have difficulty making a simultaneous touch at the turn and finish if they are restricted due to contact with the lane rope. The athlete shall not be disqualified provided that no advantage was gained. (WPS 11.5.4.5)

**SW 8.5** At the start and at turns, a swimmer is permitted one or more leg kicks and one arm pull under the water, which must bring the swimmer to the surface. It shall be permissible for a swimmer to be completely submerged for a distance of not more than 15m after the start and after each turn. By that point, the head must have broken the surface. The swimmer must remain on the surface until the next turn or finish.

## **SW 9 Medley Swimming**

**SW 9.1** In Individual Medley events, the swimmer covers the four swimming strokes in the following order: Butterfly, Backstroke, Breaststroke and Freestyle. **MC 10.4.2** If an athlete with a vision impairment surfaces in a lane that is in use, it is preferable for the athlete to return to the correct lane. The Tapper may give verbal instructions, but only after clearly identifying the athlete by name to prevent distraction or interference to other athletes. If the athlete finishes the race in an occupied lane, without a foul, their result will be valid. **(WPS 11.8.3.2)**

**SW 10.12** Relay exchanges must commence from the starting platform. Running starts from pool deck are not permitted.

**SW 10.13** In relay events, the team of a swimmer whose feet lose touch with the starting platform before the preceding team-mate touches the wall shall be disqualified.

**SW 10.13.1A** The swimmer who is next to swim in the relay event must be standing on the starting platform immediately prior to his/her start. Running starts shall not be permitted.

An extra Tapper may be required, one for tapping the athlete completing the leg of the relay and one Tapper for conveying the changeover. No coaching is permitted. (**WPS 11.7.12**)

**SW 10.15** The members of a relay team and their order of competing must be nominated before the race. Any relay team member may compete in a race only once. The composition of a relay team may be changed between the heats and finals of an event, provided that it is made up from the list of swimmers properly entered by a Member for that event. Failure to swim in the order listed will result in disqualification. Substitutions may be made only in the case of a documented medical emergency.

## **SW 11**      **Timing**

**SW 11.1** The operation of Automatic Officiating Equipment shall be under the supervision of appointed officials. Times recorded by automatic equipment shall be used to determine the winner, all placings and the time applicable to each lane. The placing and times so determined shall have precedence over the decisions of Timekeepers. In the event that a break-down of the automatic equipment occurs or that it is clearly indicated that there has been a failure of the equipment, or that a swimmer has failed to activate the equipment, the recordings of Timekeepers shall be official. (See SW 13.3). In the event that there is a failure of all timing devices in a lane then the swimmer may be offered a reswim.

**SW 11.2** When automatic equipment is used, the results shall be recorded only to 1/100 of second. In the event of equal times, all swimmers who have recorded the same time at 1/100 of a second shall be accorded the same placing. Times displayed on the electronic scoreboard should show 1/100 of a second.

- SW 11.3** Any timing device that is terminated by an official shall be considered a watch. Such manual times must be taken by three Timekeepers appointed or approved by the member in the country concerned. All watches shall be certified as accurate to the satisfaction of the governing body concerned. Manual timing shall be registered to 1/100 of a second. ## **SW 12.5.12S Swimmers With Disability South Australian Age Record Distances and Strokes – Short Course**

There shall be no Short Course Age Records for Swimmers with Disability.

## **SW 13 Automatic Officiating Procedure**

**SW 13.1** When Automatic Officiating Equipment (See FR 4) is used in any competition, the placing and times so determined, and relay take-offs judged by such equipment shall have precedence over the Timekeepers and Inspectors of Turns.

**SW 13.2** When the Automatic Officiating Equipment fails to record the place and/or time of one or more swimmers in a given race.

**SW 13.2.1** Record all available Automatic Equipment times and places;

**SW 13.2.2** Record all human times and places;

**SW 13.2.3** The official place will be determined as follows:

**SW 13.2.3.1** A swimmer with an Automatic Equipment time and place must retain their relative order when compared with the other swimmers having an Automatic Equipment time and place within that race.

**SW 13.2.3.2** A swimmer not having an Automatic Equipment place but having an Automatic Equipment time will establish their relative order by comparing their Automatic Equipment time with the Automatic Equipment times of the other swimmers.

**SW 13.2.3.3** A swimmer having neither an Automatic Equipment place nor an Automatic Equipment time shall establish their relative order by the time recorded by the Semi-Automatic Equipment or by watches.

**SW 13.3** The official time will be determined as follows:

**SW 13.3.1** The official time for all swimmers having an automatic equipment time will be that time.

**SW 13.3.2** The official time for all swimmers not having an Automatic Equipment time will be the times recorded by Semi-Automatic Equipment or watches.

**SW 13.4** To determine the relative order of finish for the combined heats of an event, proceed as follows:

**SW 13.4.1** The relative order of all swimmers will be established by comparing their official times.

**SW 13.4.2** If a swimmer has an official time which is tied with the official time(s) of one or more swimmers, all swimmers having that time shall be tied in their relative order of finish in that event.

## **MC 13 Change of Sport Class in Competition (WPS 10.14)**

Changes of Sport class during Competition may result from;

- Observation in Competition; or
- Classification Protests after Observation in Competition

**MC 13.1** If an athlete's sport class changes to a sport class that indicates a greater level of activity limitation ("lower sport class") during a competition, then the athlete's results and medals won during the first appearance shall be recognised. Times achieved will be considered as swum in the new sport class. After first appearance, the athlete should enter events in their revised sport class whenever possible. It is permissible for an athlete to enter finals in the initial sport class, if the athlete has qualified for those. **(WPS 10.14.1)**

- MC 13.2** If an athlete's sport class changes to a sport class that indicates a lower level of activity limitation ("higher sport class") during a competition, then the athlete's results and medals won during the first appearance event shall not be recognised as achieved in the athlete's initial sport class. Times achieved will instead be considered as swum in the new sport class. Athletes shall only be permitted to enter events in the new sport class. **(WPS 10.14.2)**
- MC 13.3** If a change of sport class results in an athlete not meeting the Meet Qualifying Standard (MQS) of any new event(s) to be entered, they shall be permitted to compete in any further Events. **(WPS 10.14.3)**
- MC 13.4** If an athlete is reclassified (**R**), the sport class change will take place immediately and times will be awarded in the new sport class. An athlete's historical times shall be retained in the athlete's previous sport class **(WPS 10.17.4)**.
- MC 13.5** An athlete is only eligible to set records in their own sport class regardless of the format of that event **(WPS 10.18.8)**.

**SW 14A Officials Error**

If an error by an official follows a fault by a competitor, the fault by the competitor may be expunged **(FINA GR7.5)**.
