Actions Required:

1. Training & Event host must ensure that venue management risk management processes are in place and have been considered with regards to diving.
2. Prior to use coaches & officials must familiarise themselves and swimmers of the surroundings using the Swimming Australia Competitive Dive Entry Preparation Checklist. [Click Here](#) for Checklist.
3. No diving at shallow end for any individual training or racing activity
4. Swimmers competing in relays may dive from the shallow end provided that:
 - o The depth at 1m & 6m from the wall is measured prior to the race; and
 - o The depth at 1m & 6m remains at more than 1000m; and
 - o Swimmer's diving have been trained in diving in shallow water
5. At any SwimmingSA approved event, the referee will have the final decision on diving from the shallow end at the event.

Actions Required:

1. Training & Event host must ensure that venue management risk management processes are in place and have been considered with regards to diving.
2. Prior to use coaches & officials must familiarise themselves and swimmers of the surroundings using the Swimming Australia Competitive Dive Entry Preparation Checklist. [Click Here](#) for Checklist.
3. Reduce the number of dives undertaken at the shallow end during training or racing, suggested that only swimmers competing in 4x50m relays should dive from the shallow end
4. Swimmers may dive from the shallow end provided that:
 - The depth at 1m & 6m from the wall is measured prior to the race; and
 - The depth at 1m & 6m remains at more than 1000mm during competition; and
 - Swimmer's diving have been trained in diving in shallow water
5. At any SwimmingSA approved event, the referee will have the final decision on diving from the shallow end at the event.

Open Water Venues

Because of the variability of water depths and platform heights above the water due to tidal movements, and the potential uncertainties associated with underwater obstacles, it is not practical to attempt to measure water depth and platform heights for open water swim starts. Therefore, **ALL** open water swimming competitions that commence from a platform above the water surface shall require the swimmers to use a feet first entry or to start in the water.
